Patrick Foisey

Senior Building Envelope Expert & Appraiser

The incidence of catastrophic events appears evermore common these days, which makes Patrick Foisey's talent for response and damage assessment services all the more valued. As a senior inspection and property insurance appraisal professional he has provided support to the insurance industry in the wake of wildfires, tornados, ice storms, flooding and more. Regarded as a leading educator in the industry concerning issues around construction, inspections and pre/post-loss property appraisals, Patrick's 30+ years of experience are a key strength on the Haag Canada team.

Specialized Professional Competencies

Construction Evaluations:

- Commercial and residential structures
- Building envelope
- Material problems
- Post-catastrophe damage assessment (wildfire, ice, tornado and wind events, flooding)

Code Issues and Upgrades:

- Building code evaluation
- National energy codes
